DETAILED ACTION

1. This office action is in response to the RCE/Amendment filed 6/19/2006.

2. Claims 1-25 are pending.

Claims 1-25 are allowed.

Allowable Subject Matter

4. Claims 1-23 are allowed.

In regards to claim 1, the cited prior art fails to teach the following:

A network element establishing an association between a circuit-switched and packet-switched messages for transfer of data relating to a certain positioning between elements that have packet-switched functionality with those that have a circuit switched functionality.

Using a circuit-switched connection between a network element that is configured for both circuit-switched and packet-switched messages and a location center.

In regards to claim 12, the cited prior art fails to teach a network element arranged to establish an association between a circuit-switched and packet-switched messages for transfer of data relating to a certain positioning between elements that have packet-switched functionality with those that have a circuit switched functionality.

In regards to claim 18, the cited prior art fails to teach a network element to establish an association between a circuit-switched and a packet-switched functionality for the transmission of data related to a specific positioning between
